Bob:

I have been trying to reach you by phone but your voicemail box is full so wanted to send you an email message. Can you call me at 206 553-1234? I am quite apologetic about this, but we cannot avoid a 3 week delay in getting the Proposed Plan out. We are having software problems with getting the legally necessary administrative record ready to go at the time the Proposed Plan and Final Feasibility Study go out. The team came to me yesterday with this and we met with our Headquarters folks today to work on solutions and a revised time frame, but three weeks of delay is the best we can do. I am not happy about this but am now convinced that we have no alternative.

Dennis McLerran

Regional Administrator

EPA Region 10
